

DISCIPLINE TEMPLATE

DEFINITION

<i>Name</i>	Profiles
<i>Description</i>	Profiles control access to user information and contain specific information about individuals or businesses. Such information may include a unique identifier and roles. Profiles define the roles, standards, audits, and tools used for creating, maintaining, and utilizing profiles for the various stakeholders of the State's services.
<i>Rationale</i>	Because profiles are widely used, they must be controlled to ensure the appropriate use of the information. Profiles themselves contain certain information that may be confidential.
<i>Benefits</i>	<ul style="list-style-type: none"> Increased individual/business confidence in protection of information Increased e-government transactions Decreased liability if standards are in place and followed

BOUNDARY

<i>Boundary Limit Statement</i>	A profile is information in the State's possession about an individual or business. It does not include personalization (see personalization description).
